

Compassionate **Impacts**

Engage > Serve > Fulfill

A Project of Transform Rockford, Managed by One Body Collaboratives

COLLABORATION

One Body Collaboratives is built on the concept of collaboration, and has an original mission to unite the Christian Churches to collaboratively work together. Each year we meet over 2,000 needs in our community by partnering with over 100 local churches, 39 ministries and 139 agencies, providing resources to individuals in need. Working in the community to accomplish this mission has developed the *all-inclusive* collaborative program of **Compassionate Impacts**.

A TRANSFORMATIONAL COMMUNITY PROJECT

Our **Compassionate Impacts** Project is a fresh, new approach engaging and coordinating our vast church and faith resources to help solve community issues. We have partnered with Transform Rockford to help families and children become stabilized and successful through coordination of church, faith, and community resources to meet a wide range of life needs. We serve a diverse population of neighbors in Rockford and the surrounding area regardless of age, income, race, ethnicity, culture, sex, gender, marital status, religion, political affiliation, or nationality.

OUR MISSION

Uniting the community for “Service To All, and Service By All.”

OUR VISION

Transforming compassion from random acts of kindness to aligned efforts with impactful outcomes.

ABOUT US

One Body Collaboratives (OBC) is a 501(C)(3) tax-deductible charitable nonprofit founded in 2015 by Alan Barsema and Lou Setter. OBC works with over 100 local churches, organizations, and government agencies to help meet the practical, spiritual, and human development needs of our neighbors.

PRACTICAL NEEDS

The Compassionate Impacts project assists churches, ministries, nonprofits, and local government agencies by coordinating and equipping their efforts to acts of service. We work with these partners to ensure that our resources get to those who most need it in our community.

HOW TO GET INVOLVED

Businesses

Supporting the Compassionate Impacts project allows you to mobilize your employees to act of service in the community. You can also run customized reports tracking the acts of service your employees contribute. Your support also contributes to the ongoing roll out and implementation of this community wide project, impacting thousands of individuals and families in need each year.

NonProfits

Supporting the Compassionate Impacts project allows you to be connected to churches, faith based organizations and other nonprofits in the Rockford area. The platform allows you to enter the needs of your clients into a database seen by hundreds of congregation members and community volunteers who can be a resource to meet the need. It also allows you to enter the volunteer needs for your organization, and mobilize your current volunteers to act of service in the community. You can utilize the software to run customized reports tracking the acts of service your volunteers contribute, and will also be given access to the Shared Case Management allowing you to view family case records.

Churches

Supporting the Compassionate Impacts project allows you to be connected to other churches, faith based organizations and nonprofits in the Rockford area. The platform allows you to enter the needs of your congregation members into a database seen by hundreds of additional congregation members and community volunteers who can be a resource to meet the need. It also allows you to enter the volunteer needs for your church, and mobilize your current volunteers to act of service in the community. You can utilize the software to run customized reports tracking the acts of service your congregation members contribute, and will also be given access to the Shared Case Management allowing you to view family case records.

Next Steps

1. Consider Making a Contribution to the Compassionate Impacts Project.
2. Determine who the Administrator will be for the software platform. A one-hour training session will then be scheduled.
3. Create a page on your organizations website (or link) to the list of Community Needs.
4. Promote your partnership with the Compassionate Impacts project to your congregation members, volunteers and/or employees through newsletter inserts, social media posts, etc. This creates interest for them to be a resource to meet a need.
