

We launched our Getting Ahead Classes in 2020 and had four graduates of the program who learned how to build their resources and created a plan toward self-sufficiency. Due to Covid, we were limited to the classes we could host, as well as the number of participants. In 2021 we will increase both the frequency of classes as well as the number of participants. Here are some of the results achieved by the program from our first session held in the Fall of 2020:

The charts above represent the % of graduates who had increases in these areas.

### Additional Results

- 100% indicated they made progress on the goal areas they set at the beginning of the classes.
- 100% identified additional tools or resources to support them in reaching their goals.
- 25% indicated there were additional resources or supports that they were in need of, while 75% indicated they knew how to connect with the resources they needed.

Responses to: "What have you done differently as a result of being in this Getting Ahead class?"

- Looked at my finances closer
- Empathy and understanding of under-resourced has completely changed.
- Budgeted better, started looking at where I have debt and how to get it paid off.
- Managing my time better. Hoping and thinking about my future.
