

Rebuilding Lives, Transforming Our Community

One Body Collaboratives

Our Network Partner Churches Are Our Foundation

One Body Collaboratives is a faith based nonprofit organization with a mission to "Mobilize, Further Develop, and Coordinate Church Based Resources To Rebuild Lives and Transform Our Community." We achieve this through working with many partners in the community including: over 100 Local Churches, 40 Ministries and 130 Agencies; coordinating resources to help those in need at our Family Resource Center.

The Ministry phone lines in our Family Resource Center take over 1,500 calls each year. Thanks to the support of our Network Partner Churches we are able to assist over 650 local families annually. This provides **direct services to over 600 adults and 800 children in crisis**, stabilizing their families and providing resources while also providing them with hope for a better future.

Our Network Partner Churches are foundational to the One Body Collaboratives mission. Becoming a Network Partner Church makes a direct impact on our community as your support allow us to provide resources, referrals and advocacy for individuals and their families in crisis. We see the Church as the agent of transformation for our community.

Network Partner Churches agree to the following:

- Display OBC posters at your church entrance and office
- Provide a point of contact at the church who can provide us with information for a church profile
- Make referrals for some or all of your general assistance requests
- Receive periodic communications from OBC, and regularly share opportunities for ministry and service with your congregation
- Pray for the One Body Ministry and our needs
- Commits to supporting OBC financially

One Body Collaboratives provides expertise in community resources, as well as established connections with these resources. We also utilize our network of churches to further assist those in need of additional resources. We adhere to the following level of service to our Network Partner Churches:

- Our Resource Coordination Center will be up to date on all available community resources
- Referral calls made to our Resource Center will be returned in a timely manner
- Callers are treated with dignity and respect, and we verify the validity and extent of the needs presented and requested
- Information is shared in an appropriate manner with callers and churches
- As we find gaps in community resources, we will communicate these to our partner churches allowing for an opportunity for the church to fill this gap through a ministry
- Trainings and presentations are available for volunteers and groups within your church
